Scia Engineer on Macintosh	To run the Scia Engineer software on Mac OS X virtualization software has to be used. Parallels Desktop 7 is recommended for this. When Parallels Desktop 7 is used, a Windows operating system may be installed as a virtual machine and Windows applications are used alongside Mac OS X applications. In this way, the user has 2 operating systems at the same time.
Standalone protection Windows 2003 server Windows XP 32/64 bit Vista 32/64 bit Windows 7 32/64 bit	It is advised to install the latest Service Pack for these Operating Systems except SP3 for Windows XP.
Floating protection A FlexNET service will run on: Windows XP 32 bit Windows Vista 32/64 bit Windows 2008 server 64 bit Windows 7 - 32/64 bit	It is advised to install the latest Service Pack for these Operating Systems except SP3 for Windows XP.
